NEW WRA MEMBER BENEFIT ANNOUNCED: EARN CASH BACK ON YOUR BUSINESS PURCHASES!

WRA’s new partnership with the nation’s largest Group Purchasing Organization = Cash Back Rebates on items that you buy every day for your business.

165,000 items from over 350 big manufacturers

You are the perfect candidate for this new member benefit if you meet the criteria below.

• Your food purchases are done online
• You are NOT currently a part of another group purchasing organization like Buy Right
• You do online purchasing with one of these national distributors:

How it works.

It’s simple. You buy like you always do from whichever of the above five national distributors you have a relationship with. On the backend the GPO’s system tracks your purchases, finds the rebates available based on the purchases that you made and sends you a rebate check every quarter.

You’re probably wondering how much money you can really get back.

Great question! It’s based on what and how much you purchase. A very small business will usually get around $1,200/year. Much bigger ones can see into five digit savings.

The details on how to start earning your rebates.

✗ No cost to join.
✗ No contract.
✗ No changing who you purchase from.
✓ You need to be a WRA member.
✓ You need to meet the criteria outlined above.
